

Common Signs of Possible Hearing or Vision Problems

Does your child . . .

- ◇ Turn the TV up too loud?
- ◇ Often asks you to repeat things?
- ◇ Speak louder than normal?
- ◇ Frequently say “huh?”
- ◇ Give strange answers to questions?
- ◇ Blink more than usual?
- ◇ Squint when looking at something?
- ◇ Bring things up to one eye?
- ◇ Trip often on steps or curbs?
- ◇ Hold things too close when looking at them?

Hearing and Vision Services

- The Baltimore County Department of Health Hearing and Vision staff are specially trained to work with children. The staff are able to do testing of your child's vision and hearing.

- Our staff visit Elementary and Middle Schools and Child Care Programs throughout Baltimore County to conduct testing.

- Your child will be asked to:
 - ◇ listen through earphones for sounds,
 - ◇ look at picture cards,
 - ◇ put on vision screening glasses, and
 - ◇ look at shapes and letters through the lens of the vision screening machine.
- These tests help to identify problems with sight, eye muscle weakness, or hearing.

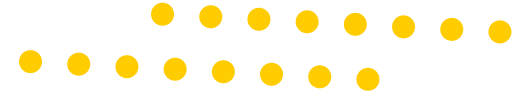

If your child has hearing or vision problems . . .

If we find that your child has a hearing or vision problem, we will send you a letter explaining exactly what was found in the test.

You will be asked to make an appointment with your child's doctor so the issue can be addressed.

There is
NO COST
for this testing!
